

Download and Install APV

Browse to the GitHub home page for APV: <https://github.com/mimelator/apv>

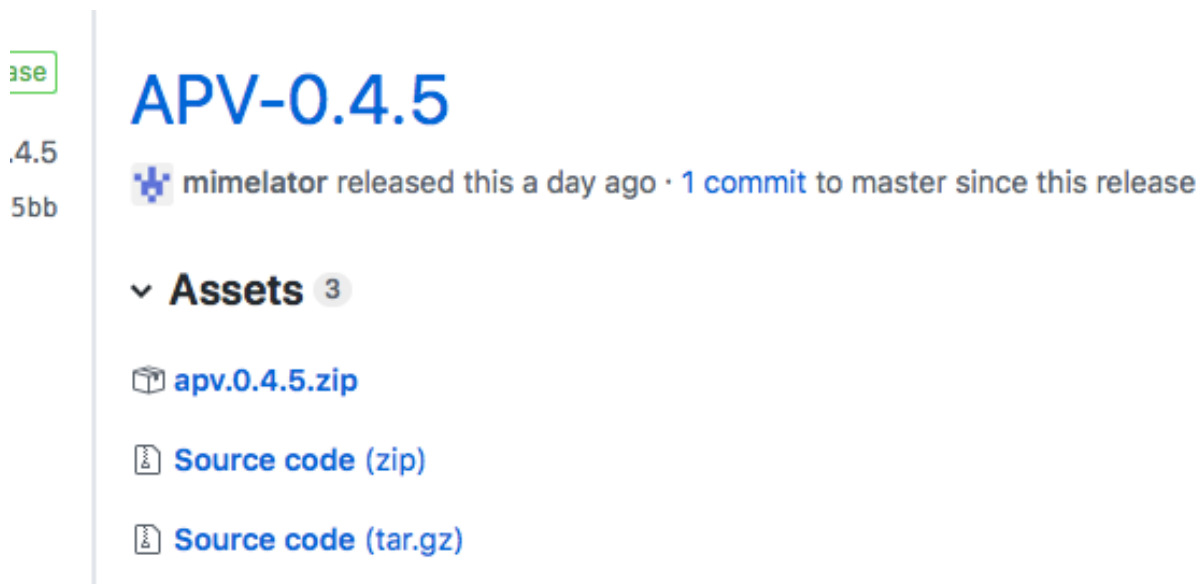

Click on the releases link: [58](#)

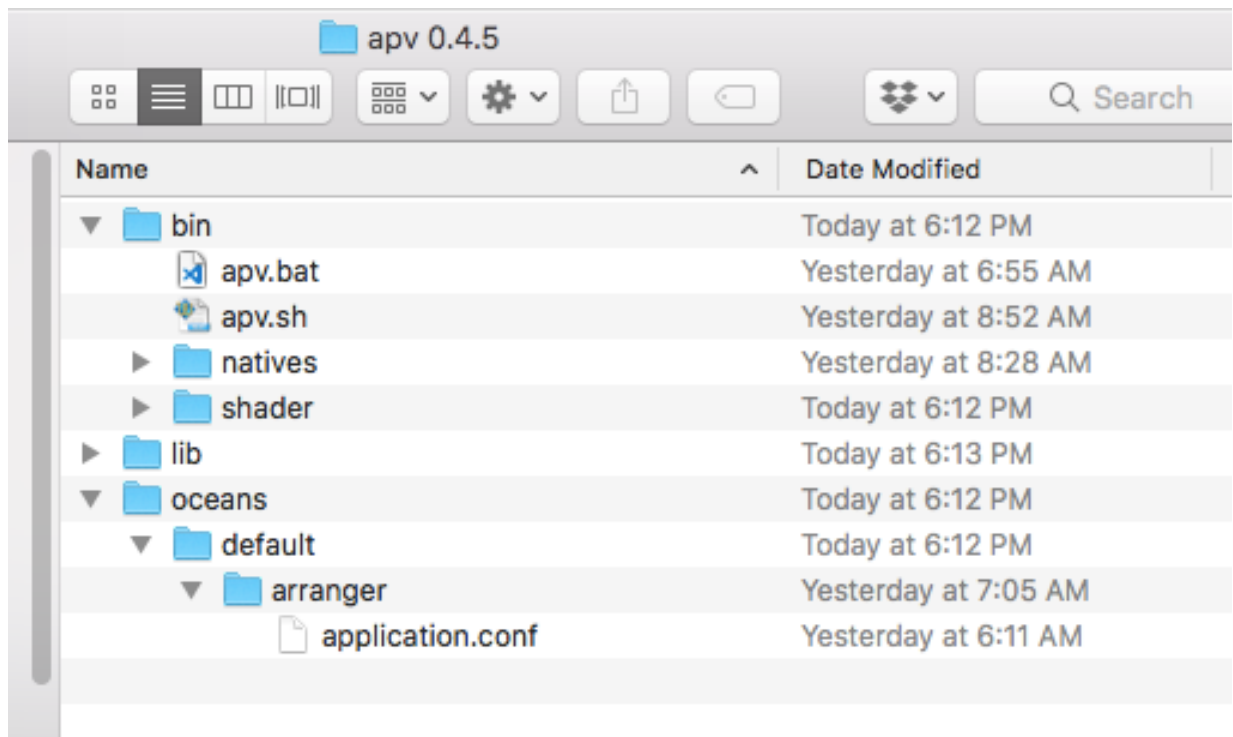

[releases](#)

Download the Zip file: [apv.0.4.5.zip](#)
[51.3 MB](#)

Unzip the download. Hopefully this will happen automatically

Open up Terminal (Cmd on Windows) and browse to the bin directory of APV.
[apv-computer] cd Downloads/apv 0.4.5/bin

Run the program:
[apv-computer] ./apv.sh

Enjoy!
